60 YEARS OF SURF STYLE

For sixty years, the Beach Boys' brilliant harmonies and pioneering musical arrangements have thrilled fans around the world. Originally named "The Pendletones" because of their love of Pendleton shirts, the Beach Boys signed with Capitol Records in July 1962. They released their first album, *Surfin' Safari*, that same year, wearing their Pendleton Board Shirts in the Original Surf Plaid on the album cover. The Beach Boys were inducted into the Rock & Roll Hall of Fame in 1988. For six decades, the Beach Boys have been one of the most critically acclaimed and commercially successful bands of all time, with over 100 million records sold worldwide.

CHIEF JOSEPH

Designed in the early 1920s, the Chief Joseph blanket is the oldest ongoing blanket produced by Pendleton Woolen Mills, and continues as one of the most popular. It commemorates the heroism of one of the great Nez Perce warriors, Chief Joseph. The pattern of balanced arrows represents wisdom, bravery, and Earth's Four Directions.

ICON KEY

Wool Woven in our United States Mills

Made in the United States

Washable Wool

PENDLETON FABRICS

AirLoom™ Merino (page 8) Pendleton's finest wool fabric for over 60 years, in light-as-air worsted merino. All-season comfort, wrinkle resistant, refreshes on the hanger between wearings.

Oregon Tweed® (page 7) Traditional tweeds inspired by Thomas Kay, a skilled English weaver who arrived in Salem, Oregon, in 1863, where he founded a mill that produced fine worsteds, flannels, and tweeds according to his own weaver's recipes. Kay's grandsons, the three Bishop brothers, opened Pendleton Woolen Mills in the early 1900s.

SoftLuxe Merino (page 32) Fine virgin merino wool woven into luxurious fabric with a soft, milled finish that has a cashmere-like touch.

Stadium Cloth (page 27) Rugged and warm, Stadium Cloth is woven in our USA mills from the same yarns as our Deluxe Motor Robes, for lasting, comfortable warmth.

UltraLuxe Merino (page 8) Fine virgin merino wool woven into the softest flannel. Wrinkle and odor resistant thanks to wool's natural elasticity and moisture-wicking qualities.

Umatilla® (pages 2-6) A versatile medium weight 100% virgin wool plain weave perfect for outdoor and indoor wear, and machine washable. Takes its name from Oregon's Umatilla County, home of the Pendleton, Oregon mill, and where Pendleton buys wool from local sheep ranchers.

ARCHIVAL PATTERNS

Plaids from the past

These plaids were inspired by favorites from the Pendleton fabric archives. On wool shirts made with these patterns, look for a "From the Archives" hangtag, and a blue placket label with the year of the plaid's first release.

32498 Blue/Black/Turq Ombre

32484 Grey Mix/Green/Blue Plaid

32500 Brown/Tan Ombre

32505 Blue/White/Black Ombre

32499 Red/Black/Grey Plaid

MENSWEAR SIZE CHART

HOW TO MEASURE SIZING ON TOPS

NECK Measure around the base of your neck.	CHEST Measure under your arms and at the fullest part of your chest.	WAIST Measure around waist at the narrowest point.	SLEEVE Measure from center back of neck across shoulder and down to wrist.

BENEFITS OF WOOL

There's More to Wool Than Warmth

SUSTAINABLE & RENEWABLE

In a time of environmental consciousness, this biodegradable and renewable resource remains longer-lasting and better looking than synthetic fabrics.

RESILIENT & WRINKLE-RESISTANT

The unique characteristics of the individual wool fibers give fabrics the ability to hold a shape, resist wrinkles and withstand wear. This makes wool great for travel. Wool can be stretched or twisted and its cells return to their original position.

NATURALLY COMFORTABLE

Wool fibers spring back to shape keeping their open, porous nature. Wool provides the most warmth with the least weight. The air trapped inside (about 80% of wool fabric volume) makes wool an excellent insulator. Wool is nature's original outdoor "performance" fiber.

FLAME RESISTANT

Unless it is in direct contact with flame, wool will extinguish itself. The denser the weave and the greater the fabric weight, the less likely it is to char because of its smaller oxygen content. Fire departments recommend the use of wool blankets, rugs or coats to put out flames.

LUSTROUS & FADE RESISTANT

Wool has a permanent natural luster it never loses, even after years of hard wear. It absorbs dyes until it is completely saturated so colors stay brilliant. No other fiber can be spun or woven into such a variety of weights, textures, finishes and colors.

WATER & STAIN REPELLENT

Wool repels light water, like a rain shower, because of the membrane on the outer scales. In very wet conditions, wool can absorb up to 30% of its own weight without feeling damp. And because of insulation ability, wool "breathes," allowing the body's natural moisture to pass through.
