54297 Tolavana

Tolavana is a peaceful stretch of the northern Oregon coast with a spectacular view of its most famous landmark; Haystack Rock. Pendleton celebrates this 235-foot sea stack with a pattern that pays tribute to the famous dome, standing as the centerpiece of a dedicated Marine Garden. The tides of the Pacific Ocean fill the beach's tidepools, home to mysterious aquatic creatures: limpets, seastars, anemones, barnacles. In the spring and summer, seabirds such as Western Gulls, Tufted Puffins, Pelagic Cormorants, Pigeon Guillemots, and Black Oystercatchers visit. The area's wildlife, sea life and natural beauty make it one of the most popular destinations in Oregon. Visitors from all over the world come to Tolavana to experience Haystack Rock.
